Declines to Act in Martin Bond Case.

New Orleans Daily States.

Baton Rouge, La., June 29.—Governor Pleasant has declined to take any steps attacking the bond of Wade O. Martin, sheriff of St. Martin parish.

It seems that after Mr. Martin’s defeat as Democratic candidate for Congress against Whit Martin, the Progressive, the police jury of St. Martin made an attack on the bond Mr. Martin had given as sheriff.

LEGISLATOR OF GEORGIA

Mrs. Bessie Kempston, who is the first woman to be elected and admitted to the Georgia state legislature. She has been active in women’s clubs and general politics for some time, and her election is the culmination of her public career.

Louisiana Newspaper Project

Since 1986 LSU has been actively involved with the United States Newspaper Program (USNP). During the first phase of the Louisiana Newspaper Project (LNP), a survey was conducted by Dr. Elsie Hebert of the Manship School of Journalism. The second and third phases (cataloging and microfilming) of LNP have been conducted by the LSU Libraries, beginning in the Fall of 1987 and continuing to the present.

The purpose of USNP is to preserve and make accessible newspapers printed in the fifty states and in the trust territories. USNP is supported financially by the National Endowment for the Humanities, with technical assistance provided by the Library of Congress.

During the cataloging phase of the LNP, LSU Libraries staff members cataloged all extant Louisiana newspapers they could locate in the state. They also compiled detailed information on all issues (both original and on film) held by repositories throughout the state. This information is updated and currently available online via FirstSearch WorldCat and OCLC Connexion Local Holdings Maintenance. All information compiled to 2000 is in the 3rd edition of The Louisiana Newspaper Project Printout (1999) available from the LSU Libraries. Records for Louisiana newspapers held by the LSU Libraries can be found in the online catalog.

“Family trees” have also been created for some newspapers with complicated publishing histories to help users trace changing titles and editions through time.

Louisiana Populist

NATCHITOCHES PARISH

The People’s (or Populist) Party in Louisiana was founded in October 1891 to represent the interests of farmers and laborers in rural communities and to encourage pro-labor legislation. In addition to supporting national monetary reform (“free silver”), Louisiana Populists also called for reform of the state’s electoral and political system, which was then dominated by the so-called Bourbon Democrats.

One of the leaders of the People’s Party in Louisiana was Hardy L. Brian (1865-1949) of Winnfield. In 1890, Brian began publishing the Winnfield Comrade, one of the first Populist newspapers in the South. Four years later he established a second paper, the Louisiana Populist, in Natchitoches, a small town near the Texas border. Founded in 1714 as a French trading post, Natchitoches in the 19th century developed into an important center of Louisiana’s cotton industry. It was also located near a heavily forested region of Louisiana. The close proximity of farm and timber workers made Natchitoches an especially appropriate choice for Brian’s base of operations.

The Louisiana Populist, which replaced W. L. Shackelford’s Montgomery Mail as the official organ of the People’s Party in Louisiana, became one of the most important third-party newspapers in the state. The first issue, published on August 24, 1894, bore the motto: “Equal Rights to All, Special Favors Where Justice Demands.” Its editor declared that the paper would be “devoted to the education of the people upon the great economic issues of the day.” Brian reported on key elections of the mid-1890s, both local and national, as well as on major events in the labor movement. As with other Populist...

Frequently Asked Questions (FAQs)

What is the Newspaper Directory?
The Newspaper Title Directory is derived from the library catalog records created by state institutions during the NEH-sponsored United States Newspaper Program (http://www.neh.gov/projects/usnp.html), 1980-2007. This program funded state-level projects to locate, describe (catalog), and selectively preserve (via treatment and microfilm) historic newspaper collections in that state, published from 1690 to the present. Under this program, each institution created machine-readable cataloging (MARC) via the Cooperative Online Serials Program (CONSER) for its state collections, contributing bibliographic descriptions and library holdings information to the Newspaper Union List, hosted by the Online Computer Library Center (OCLC). This data, approximately 140,000 bibliographic title entries and 900,000 separate library holdings records, was acquired and converted to MARCXML format for use in the Chronicling America Newspaper Title Directory.

Why are there pages from only certain states?
Chronicling America is part of a phased project called the National Digital Newspaper Program (NDNP). This program, funded by the National Endowment for the Humanities (NEH), awards money to public newspaper archives in each state to digitize and deliver historic newspaper content to the Library of Congress for inclusion in Chronicling America. Listed below are the states and territories currently participating in the program and the date range for content they will provide*. Eventually, the NEH will fund awards in every state and territory.

- Arizona, 1836-1922
- California, 1860-1922
- District of Columbia**, 1836-1922

- Illinois, 1860-1922
General Searching in Chronicling America

Results listed first are most likely to be relevant to your search. Results will appear higher in the list when they contain

- more of your search terms;
- repeated search terms;
- search terms that occur near each other;

Your searches will yield better results if you keep the following points in mind:

- Common words such as and, not, and the are ignored by the search engine.
- Case of letters is ignored. For example, Civil and civil are treated the same.
- Diacritic characters (accent marks, in non-English text) and other special characters produce inaccurate results, so plain (unaccented) letters should be substituted for letters with diacritics.

Search and Browsing Tips

Many browsers have the capability of tabbed browsing, which opens a new pane in the current window, either in the background or the foreground. Users of Chronicling America have reported this as a useful method of navigating through search results - bringing up each result in a new tab. This may be accomplished by clicking with the right-hand mouse button (for Mac, hold down the Command key) and selecting "Open Link in New Tab."

Search results are displayed on a page that can easily be bookmarked or navigated to via the "Back" button on the browser. Every page in the Chronicling America application can be bookmarked, but only the addresses containing newspaper pages should be treated as canonical for purposes of citations and long-term referrals. These addresses are displayed in the address bar of the browser, and no special treatment is required for adding them to a citation database. (Select the "Persistent Link" URL displayed on each newspaper page view to store the link without search text highlighted.)

Search for a Phrase

- Select the Advanced Search tab and enter your phrase in the appropriate "...with the phrase" search box.
- When searching for a phrase, enter the words in the order they are most likely to occur.
- The order of search words does not affect the scope of the search results, but it will affect the order of their display.

Search for Words Near Each Other

- Select the Advanced Search tab and enter your keywords into the "...with the words" search box.
- Select a numeric value for how close the words should be to each other (proximity).
- This type of search can be helpful in narrowing results on a given person, place or event to a specific aspect of that person, place or event. For example: "Roosevelt conservation" within 10 words will result mostly in articles about President Theodore Roosevelt’s Conservation policies during his administration.

Too Many Results - If a search generates too many results, try using more specific terms and/or limiting to a specific

Many of our contemporary assumptions about newspapers will not apply!

- Newspapers are not objective
- Opinion, gossip, and outright lies are often printed as “news”
- Many newspapers were one-man operations dedicated to expressing the opinions of the editor (which often reflected the opinion of subscribers)
- With the profession of journalism in its infancy, many articles, photographs, and cartoons were “borrowed” from other papers
- Often no bylines, sections, or headlines
