

**DUPLICATING SPECIAL COLLECTIONS MATERIALS**  
**LSU Libraries Special Collections**  
**Information, Instructions, and Pricing**  
**Effective August 26, 2019**

**All duplication of Special Collections materials requires prior approval of a library staff member** and orders must be placed through our Special Collections Request System (SCRS).

**Published materials (books, journals, etc.):** Self-service photocopying of books is allowed if condition, value, age, and/or copyright restrictions do not apply. Patrons should request permission from reference desk staff before any self-service copying takes place. If the book is at risk of damage or already in poor physical condition, other options may be used to provide copies, such as scanning or digital photography.

**Manuscript materials:** Researchers can place orders for staff-produced copies. Patrons should speak to reference desk staff for instructions. Self-service photocopying or the use of personal scanners is not permitted for manuscript materials.

**Photographic materials:** Researchers may order staff-produced digital scans or photographic prints. We do not allow photocopying of photographs, nor the use of personal scanners to scan photographs.

**Self-Service photography:** Researchers interested in taking photographs of collection materials for personal research purposes must first speak to the reference desk staff to receive a Camera Use Policy form. Photography of manuscript and photographic materials (no flash) requires permission from a staff member. Manuscript items must remain in their folders and in order. Photographs must not be removed from their folders or protective sleeves.

**Digital Collections:** Low-resolution image files are available to download from the Louisiana Digital Library: <http://louisianadigitallibrary.org/l-su-sc>.

**Fees:** Fees for duplication services are listed on the back of this sheet.

## **COPYRIGHT**

All copies of the LSU Libraries Special Collections materials created by patrons or supplied by the library fall under allowances provided by Section 107 (Fair Use) and Section 108 (Library and Archives exemptions) of the United States Copyright Act.

## **PERMISSION TO PUBLISH**

Reproductions of materials from Special Collections do not include permission to publish or exhibit. All reproductions are provided for personal research or private study purposes only. It is the responsibility of individual users to determine whether their proposed use is lawful or if permission of the copyright holder(s) is required. Researchers assume all responsibility for their uses of Special Collections materials.

**LSU LIBRARIES Special Collections**  
**DUPLICATING SPECIAL COLLECTIONS MATERIALS**
